**Call 1-800-846-4678**

NurseLine services provide immediate telephone access to experienced registered nurses who can answer your questions about nearly any health or medical concern, 24 hours a day, seven days a week.

### **Connecting People with Information They Need**

NurseLine provides reliable information and support regarding a wide range of health concerns – 24 hours a day, 365 days a year. One toll-free number gives you access to registered nurses to assist you and your family with health care questions and concerns.

NurseLine services also offer audio messages on more than 1,100 health and well-being topics. More than 600 audio messages are recorded in Spanish. Translation services are available for 140 languages. Services are also available to callers with hearing impairments.

### **Experienced Professionals**

NurseLine nurses have an average of 15 years clinical nursing experience. They are an excellent resource when you and your family have minor health needs or questions. Nurses help identify and address a variety of health-related concerns.

“My baby has a temperature of 102 degrees. It’s midnight. What do I do?”

“I was recently diagnosed with diabetes. What types of questions should I ask my doctor?”

“I am having trouble sleeping at night and I feel wiped out at work. What can I do to get a good night’s sleep?”

### **Current Health Information**

NurseLine nurses offer service based on up-to-date medical and professional guidelines. We consistently deliver high-quality service. So you can be confident that you and your family receive practical health information you can use every day.

**It just makes sense.<sup>®</sup>**
